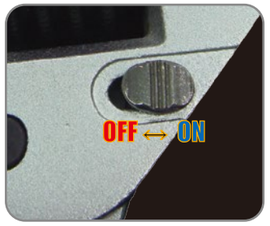
INNOVATIVE PATENT - Auto Release Adjustable Wrench -

The AR Series Auto Release Adjustable Wrench were designed and manufacturered by New Way Tools in 2011. It has been a leading patent and an unique design among hand tools industry. A simple but brilliant machanism making this tool more efficient in operation. Accurate tooling and processing methods ensure AR Series working in the field more ergonomically and precisely.

Features

AR Series is equipped with advantages of adjustable open jaw as well as ratcheting handle for efficient fastening or loosing capability.

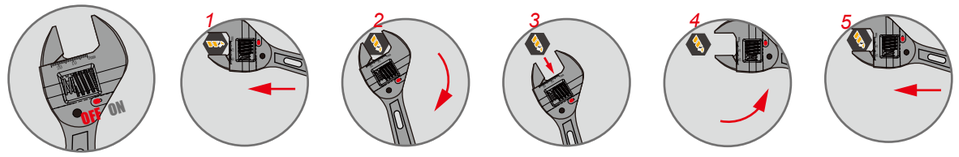


Auto-Release Switch Button

Users can select either Auto-Release On or Off to operate AR Series in different circumstances. When Auto-Release Off, AR Series could be operated as an normal adjustable wrench; When Auto-Release On, it could be turn into a high speed craft.

Opearating Comparison

Auto-Release OFF : Operation Instruction



Auto-Release ON : Operation Instruction
